

## Rupert

Hi, I am Rupert 🐶. Borned in a farm in Texas, but live in California. I'm a doggy aiming to bring the power of web dev to everyone I currently working for the **Code Retriever** I like coding, enjoying the taste of yummy bone. Forgive me not have an education experience, I learn everything from the Internet 🐾.

## Experience

### Front-End Developer at Code Retriever

January 2023 - Present

- Developed and maintained user-friendly web interfaces using HTML, CSS, and JavaScript.
- Collaborated with designers to implement responsive and accessible UI components.
- Managed multiple projects simultaneously, ensuring on-time delivery of features and bug fixes.
- Led the team in creating a smooth and engaging user experience for the company's main platform.

### Project Manager at PawTech

June 2021 - December 2022

- Supervised a team of developers to deliver high-quality applications for pet care services.
- Implemented agile methodologies to streamline project workflows and enhance team productivity.
- Coordinated with clients to gather requirements and deliver tailored software solutions.

## Projects

### Pet Store Website

April 2023

Built a responsive e-commerce website for pet products using HTML, CSS, and JavaScript. Implemented a secure payment gateway and optimized for performance on mobile devices.

### Cat Adoption Platform

December 2022

Designed and developed a platform to help users adopt cats, with real-time search and filtering options. Integrated Google Maps API for location-based searches.
